

JUDGE C. E. D. WOOD (MACLEOD PIONEER) DIES SUDDENLY AT WEYBURN, SASK.

FEDERAL FARM LOAN SCHEME
URGENT ON OTTAWA BY
THE LEGISLATORS AT
MONTREAL

Edmonton, March 21.—Another memorial from the provincial legislature to the Dominion government was duly wrapped up and turned over to the government for mailing in the house Friday afternoon, this being a resolution proposed by R. G. Reid, provincial treasurer, to the following effect:

"That this House continue to urge upon the Dominion Government the necessity for a federal farm loan scheme and request that action be taken at the present session of parliament to make the necessary provisions to make such a scheme effective."

Although there was no opposition to the motion after it had been debated the entire afternoon, Hon. C. R. Mitchell, characterized it as a "mere vote catching scheme," on the part of the government and other Liberals protested against it as being indefinite and in no way offering any constructive suggestion to the Dominion parliament. Simply another case of a "dummy bill" declared J. C. Bowen, Edmonton, like the Alberta Farm Loan Act of 1924 had been.

No Seed Grain Advanced

During the afternoon, Hon. Geo. Headley, Minister of Agriculture, reiterated the government's policy of making no advance for seed grain to settlers in the southeastern part of the province this year, in response to any appeal for such assistance voiced in the legislature Thursday afternoon by Johnson, Labor member for Medicine Hat, and Hon. C. R. Mitchell, Liberal leader, Bow Valley. Both Mr. Johnson, and Mr. Mitchell urged that the most deserving cases amongst the settlers be given individual consideration with rigid supervision under the debt adjustment bureau commissioner, Mr. Headley said this was impossible, for the government could not recede from the policy of the last two years; the government would no longer provide seed grain.

He stated that Commissioner Fream had power to investigate and provide fodder and relief under the debt adjustment act in individual cases but there was no authority to advance seed grain.

That scientist who says a star is the most solid thing in the universe hasn't examined some heads we know.

It is estimated that 87 per cent of the population has time to stop and watch a sign painter work.

RAISE SILVER FOXES

If you could buy a pair of the best quality prolific Government Registered Silver Black Breeding Foxes on easy terms of payment until November 1st, 1927, for \$360.00, would you be interested?

Fox Farming pays bigger profits than any other industry we know of—the returns are quick and the profits large. Silver Black Foxes are the greatest mortgage lifters that we know about. They produce yearly returns and are not affected by drought, hail or frost.

Write the Parkhill Silver Black Fox Co., Ltd., 501 Leeson and Lineham Bldg., Calgary, for their pamphlets, "POSSIBILITIES IN FOX FARMING" and "HOW WE CAN SELL GOVERNMENT REGISTERED BREEDING FOXES ON EASY TERMS OF PAYMENT FOR \$360 PER PAIR," or apply to

BUDGET ENDORSED AFTER
LONG DEBATE

Edmonton, March 26.—The legislature, by plodding along all the afternoon and until nearly midnight last night, brought the seven day budget debate to a close, the government motion to go into committee of supply being endorsed by a register of 28 to 8.

The long grind was finished off with a resume of the debate by Hon. R. G. Reid, provincial treasurer, who defended the government system of accounting, said there would be steps taken toward some better adjustment in the field of taxation although this could not be proceeded with very far until the Dominion granted the province some exclusive rights for taxation, and declared the government was making substantial progress in their task of balancing the budget, this being more marked than the attempt of Sir Henry Thornton to balance the Canadian National budget, although Sir Henry had been pointed out as a desirable example of what a big business administrator could accomplish under serious difficulties.

How They Divided

The 28 members voting for the government motion were: Messrs. Headley, Reid, Ross, Smith, Baker Matheson, Clappold, MacLachlan, Sparks, Cameron, Galbraith, Shields, Brown, Washburn, Andrews, Buckley, Peterson, Cook, W. C. Smith, G. W. Smith, Strainham, G. N. Johnston, Sanders, Proudfoot, Connor, and Chornush. Those voting against the motion were Messrs. Mitchell, Bowen, Mrs. McCullung, Mills, Dechene and McLennan, Liberals, and W. M. Davidson and T. C. Milnes, Independents.

Absentees were Messrs. Greenfield, Brownlee, Mrs. Parley, Foster, Love, N. S. Smith, Carson, Moore, Joli, St. Arnaud, Enzshauer, Fedun, government; Cross, Tobin, Henry, Heffernan, Giroux, Liberal; Dr. Stewart, Conservative; White, Labor; Robt. Pearson, Independent, paired with Mr. Brownlee; J. C. McKee, present, paired with W. J. Heffernan, and W. G. Farquharson, present, paired with S. G. Tobin.

The defeat of the Liberal amendment some days ago proposing a cut of \$600,000 in the budget was on a vote of 39 to 11. A. M. Matheson, W. G. Farquharson, Sam Brown, W. G. Johnston and J. M. Dechene, Beaver River, were the other speakers during the evening before the provincial treasurer closed the debate.

CLEARING UP THE RUINS

Chicago, March 23.—Saddened by the final tragedy of its greatest tornado disaster, the burial of its dead, Southern Illinois and Indiana turned today united to the mammoth task of rehabilitating.

All injured have received medical attention and all homeless have been provided with temporary shelter. It was announced, as plans got under way for a virtual rebuilding of the stricken areas. A colossal task faced these agencies engaged in reconstruction work as arrangements were made for a complete survey of the storm territory.

It was expected that four months or more would be required to clear hundreds of acres of ruins, restore thousands of shattered homes, rebuild factories and establish new systems of sanitation.

Henry M. Baker, head of the disaster relief committee of the Red Cross, announced that his organization expects to rehabilitate every family affected by the storm.

MOVE TO CUT DOWN NUMBER
LEGISLATORS

Edmonton, March 21.—Reduction of the electoral divisions of the province from 60 to 40 will be asked in the legislature by means of a resolution placed on the order paper by R. C. Marshall, Liberal, Calgary. The motion for a redistribution reads as follows:

"That in the opinion of this house legislation should be introduced before the end of the present legislative term amending the Legislative Assembly Act to provide for a reduction in the number of electoral districts from 60 to at least 45; and that in any redistribution effected by reason of such amendment, regard shall be had to both population and extent of territory within any constituency for the purpose of equalizing representation in the legislature."

CARD OF THANKS

Mrs. Karl Johnson wishes to thank her many friends for kindness and sympathy extended to her in her recent sad bereavement; especially the Macleod Hospital Nurses, Dr. Kennedy and Rev. Armstrong, also to those who helped in the neighborhood.

HEADS OR TAILS

At a golf club one Sunday morning a member turned up late. Asked why he said it was really a toss-up whether he should come there that morning or go to church.

"And I had to toss up fifteen times," he added.—Ex.

DOMINION INDIAN CELEBRATION

CONCESSIONS

Those desiring concessions at the Dominion Indian Celebration to be held at Macleod on July 1st, 2nd and 3rd, 1925, apply to Mike Mountain Horse, Secretary, 18th Street, Macleod.

STORM STRICKEN TOWNS BURY
DEAD

Chicago, Mar. 21.—The storm-swept territory of the Ohio Valley today continued the tragic duty of burying its dead, while relief workers completed the task of bringing order out of chaos and plans for rehabilitation were advanced.

Funeral services for some of the victims of Wednesday's storm were held yesterday but most of the burials were arranged for today and Sunday with memorial services to be held later. In towns where the loss of life was heaviest, community funerals were planned with burial in one long grave.

Relief Work

Reports from the destroyed districts said that relief work was well organized. A flood of material aid continued to pour in for sufferers in the greatest tornado in the history of the continent which snuffed out more than 800 lives, injured three thousand persons and left entire communities homeless. While some cases of pneumonia were reported in Southern Illinois, there was little other illness to add to the storm horror and no threat of tetanus. Seven hundred units of anti-tetanus serum, sent by airplane from Indianapolis, were available for emergency use.

A few isolated cases of looting came to light, but generally there was no disorder. At West Frankfort a man was caught taking a ring from a woman's finger and was slain by a policeman.

Business generally was at a standstill, but with the work of clearing debris from demolished districts proceeding rapidly, commercial activities in some communities were expected to be resumed next week. The main street of Murphysboro was cleared yesterday.

Death Count Over 800

Re-check of casualty lists early today indicated that the death count was slightly more than 800. Additions to the lists in some towns and the elimination of duplications left the figures at 809 dead and 2,816 injured. The toll at Murphysboro is 202, with the finding of 11 bodies, with latest reports from rural districts, made further additions. No radical change was anticipated as checked lists of identified dead contained 756 names.

Towns of Illinois, Parrish and Desoto, and Griffin in Indiana, virtually were annihilated. The present outlook is that no effort will be made to rebuild them. But Senator Sneed refuses to give up as to Desoto. "My father is buried there," he said. "In Griffin, though not a house is left standing, an ancient man announced he would return and rebuild. 'I don't want to die anywhere else,' he said."

A SCHOOL GROUNDS COMPETITION

A competition in the ornamental planting of rural school grounds is being inaugurated by the Canadian Horticultural Council. The purpose of the competition is to encourage the planting of such ornamental and hardy shrubs as will not suffer for lack of attention during the vacation period. The abundance of native shrubbery available locally in many parts of the Dominion and the fine things, equally as hardy, obtainable from the nurserymen, give encouragement to the Council and the promise of a charming transformation in the school grounds of the country.

The competition, though Dominion-wide, is divided provincially. Nine silver cups have been secured for award one in each province, to the rural school accomplishing the greatest degree of beautification in its grounds during the year. The cup will become the property of the school winning it three times, not necessarily in succession. With each up the Council will also give an award of merit certificate, which may be framed and kept by the school as a permanent record.

To enter the competition the schools are required to submit a photograph of the building and grounds and an application of entry to the chairman of the provincial committee or to Mr. L. F. Burrows, Secretary of the Canadian Horticultural Council at Ottawa. Details of the competition, which will be conducted under the immediate chairmanship of the provincial Department of Education, are available from the Secretary of the Canadian Horticultural Council at Ottawa, or from any of the following chairmen of provincial committees: British Columbia, Prof. F. E. Buck, University of British Columbia, Vancouver; Alberta, Prof. Geo. Harcourt, University of Alberta, Edmonton; Saskatchewan, Dr. F. C. Patterson, University of Saskatchewan, Saskatoon; Manitoba, Prof. F. W. Broderick, University of Manitoba, Winnipeg; Ontario, Prof. A. H. MacLennan, Ontario Agricultural College, Guelph; New Brunswick, A. G. Thurney, Provincial Horticultural Federation, Fredericton; Nova Scotia, Prof. Shaw, College of Agriculture, Truro; Prince Edward Island, J. A. Clark, Dominion Experimental Farm, Charlottetown.

SALVATION ARMY HOME SALE
MARCH 14th.

The Officers with the Secretary, Mrs. Ironfield, and Treasurer, Miss Betty Warren, wish to thank the people of Macleod for the liberal way in which they contributed to the Sale of work and home cooking given by the above mentioned. It was a real success in every way, realizing an income of \$57.00. Any one wishing to get information, or join this organization may apply to any of the names mentioned above.

Columbus knew the shape of the world; but he wouldn't recognize it, the shape it's in now.

Another Macleod oldtimer, C. E. D. Wood, has joined the ranks of the departed pioneers of Western Canada, his death taking place at his home at Weyburn, Saskatchewan, from a paralytic stroke, on Friday morning, March 20th.

The late C. E. D. Wood came to Alberta in 1880, and enlisted with the North West Mounted Police. He resigned from the force in 1882 and went into the newspaper business publishing the Macleod Gazette in that year, the first newspaper published in Southern Alberta, assisted by the late S. Saunders. Mr. Wood continued as publisher of the Gazette until 1896, when he was called to the bar of the Northwest Territories, and practised as a barrister in Macleod until he moved to Regina, where he joined F. W. Haultain, now chief

EMPRESS THEATRE
CURRENT ATTRACTIONS

PARAMOUNT'S "CODE OF THE WEST" SOMETHING NEW IN WESTERN FILMS AT THE EMPRESS NEXT WEDNESDAY AND THURSDAY

Picture Based on Famous Zane Grey Story—Chock-full of Action and Thrills Yet Lacks Two-Gun Villain

Readers of Zane Grey novels and film fans who have enjoyed the screen adaptations of his red-blooded stories are certain to be considerably surprised and not a little startled when they see the picture version of his latest book, "Code of the West." It opens at the Empress Theatre next Wednesday for a two days' run.

The striking thing about this new photoplay is that although it was written by Mr. Grey in his characteristic vivid and colorful style, with the elimination of duplications left the figures at 809 dead and 2,816 injured. The toll at Murphysboro is 202, with the finding of 11 bodies, with latest reports from rural districts, made further additions. No radical change was anticipated as checked lists of identified dead contained 756 names.

The plot primarily concerns itself with the romance of a cowboy and a flapper. The girl, who goes out west for her health, typifies the jazz life of the east. She deliberately plans to attract the sturdy young westerner, but laughingly turns him down when he proposes. But in the west such conduct is not easily condoned as she learns to her dismay. The cowboy forces her to marry him and then—what happens after that you will have to find out for yourselves from the picture.

Owen Moore, popular film player has the leading male role. Constance Bennett, because of her acting ability, youth and screen charm was selected to play the part of the flapper. Others in the cast who are featured include Mabel Ballin, Charles Ogle and David Butler.

William K. Howard, who produced the picture, has done a workmanlike job. He deserves an especial pat on the back for his effective handling of the big scenes in the production—notably, an exciting automobile-horse race and a tremendous forest fire.

It is his shrewd direction, coupled with Lucien Hubbard's skilful adaptation and the fact that the story was photographed in the exact locale described by the author—Tonto Basin, Arizona, one of the most primitive wildernesses in the United States—that gives "Code of the West" the distinction of being something new in western films.

ERNEST TORRENCE IS CAPT.
HOOK IN "PETER PAN" FILM

Betty Bronson and Others in Cast of New Paramount Picture

Glad?" shouted Ernest Torrence when questioned about his feelings on being selected to portray the role of Capt. Hook in the Paramount picture of "Peter Pan." "It is the greatest thing that has ever happened to me in my life. There is nothing in the entire history of the world's literature that I would rather play. Glad? I'll tell the world I'm glad!"

Torrence, who is featured with Betty Bronson, Cyril Chadwick, Virginia Brown Faire and Anna May Wong in the production which is due next Monday and Tuesday at the Empress Theatre, looks the part of Capt. Hook even without make-up and his attitude toward the Barrie fantasy is, therefore, the more amazing. He has studied the play not only with the mind of a student but with the heart of a man who loves it.

"What a marvelous conception the character of Peter Pan is," he said one day while discussing plans for the picture. "Every man with the heart of a boy is a Peter Pan. In infancy he may not have fallen out of his baby-trail to that wonderful land, most of them can't miss it. The feet of youth skip over it nimbly enough, although there are many stones in the path of the feet of age."

"I am sorry for the man who can't remember his days of hand-to-hand encounters with whiskered pirates of

justice of Saskatchewan, in the practice of law. In 1915 he was appointed district court judge at Weyburn, Sask., which judicial position he held until the time of his death.

The late Judge Wood was born in Washington, D.C., October 16th 1856, and was educated at Trinity College School, Port Hope, Ont. He married Miss Anna Diehl Parker, of Macleod, in 1883.

During the celebration of the Macleod Jubilee last year the late Judge Wood took an active and prominent part, and was judge of the Indian costumes, and other entries in the carnival.

Judge Wood's death comes as a great shock to his many friends in Macleod, whose sympathy goes out to his widow in her sad bereavement.

the Spanish Main; who can't remember his desperate battles with the savage redskins, when every clump of bushes was an ambush, when every tree concealed an enemy. What heroes we were and what brains we had. The wily Long John Silver schemed against us in vain. We laughed at the nefarious plots of Captain Hook and defeated them. Chief Red Eagle and his band held no terrors for us, so long as we had our trusty rifle. We thwarted them all at every point and how we revelled in the shock of battle and gloated over the mangled bodies of our enemies. The clash of swords, the rattle of musketry and the deep boom of the cannon were music to our ears.

"Those were the good old days!" "Peter Pan," produced by Herbert Brenon, was adapted for the screen by Willis Goldbeck. There's a strong cast playing in support of the principals.

"PETER PAN," NEW PARAMOUNT
FILM FEATURES A-I CAST

Screen Version of Barrie Classic Produced by Herbert Brenon

For over half a year, the quest for a player to portray the title role in the Paramount film version of "Peter Pan" excited universal interest. Suggestions for the part poured into the Paramount studio from the four winds.

Seventeen year old Betty Bronson finally won the role, selected by James M. Barrie, the author, himself in a competition with some one hundred aspirants for this much coveted dramatic prize. Among them were some of the world's greatest artists. According to Barrie, pretty Miss Bronson is the ideal "Peter Pan." Ernest Torrence, the scout of "The Covered Wagon," and Lois Wilson's ranch foreman in "North of 35," is cast as Captain Hook, the pirate chief. Virginia Brown Faire is cast as the little fairy, Tinker Bell. Cyril Chadwick is Mr. Darling and Anna May Wong portrays the Indian girl, Tiger Lily. All the aforementioned players appear in featured roles in the cast.

Wendy, besides "Peter Pan" perhaps the most important role in the production, is played by Mary Brian. It is her first motion picture role and one of the finest portrayals of the season. Little Jack Murphy and Philippe de Lacy are cast as Wendy's brothers, John and Michael Darling. Esther Ralston plays Mrs. Darling and then, of course, we mustn't forget Nana, the dog-nurse. George Ali gives a fine pantomimic performance in this part.

"Peter Pan," which opens a two days' run next Monday at the Empress Theatre was adapted for the screen by Willis Goldbeck.

HOOSIER NOVEL IS BROUGHT TO
SCREEN

Edward Eggleston's popular novel "The Hoosier Schoolmaster" has been brought to the screen by Witman Bennett. The Empress Theatre is playing it next Friday and Saturday and if you want to give yourself a treat, go to see it. It's not only a fine portrait of the Hoosier Country but it's funny and mighty thrilling.

When Ralph Hartsook becomes schoolmaster of the Flat Creek District, he doesn't know what he's letting himself in for. Before long a cane of thieves who are harassing the people put the blame of their robberies on him and he is almost lynched. But he succeeds in showing up the real thieves and winning the girl he loves even though, in accordance with the custom of the time, she is "bound out" as a servant.

There are two or three fights in the picture that will make you sit at the end of your seat with excitement. Nat Pendleton, world's amateur champion heavyweight wrestler takes part in one of them so you know it's a real battle. The others are just as breath taking.

Henry Hull who plays the part of the Schoolmaster is ideally suited to the part. Jane Thomas is excellent as Hannah, the "bound-out" girl. The supporting cast is a large and worthy one. Each player ably portrays a typical Hoosier "character." The cast includes Mary Foy, Dorothy Allen, Walter Palm, Frank Dane, Arthur Ludwig, Frank Andrews and Tom Brown.

Praise should be given the producers who have evidently endeavored to make the picture faithful in every detail to the period. The spelling bee, the office of the country doctor, the trial, all are in keeping with the time. If you want to laugh and to be really thrilled don't miss this one.

WELL-KNOWN SCREEN ACTOR
WAS BROUGHT UP BY INDIAN
TRIBE

His name is Whitehorse! And as Whitehorse is known to film fans

BUDGET TODAY—DECREASE IN
REVENUE FOR YEAR

Ottawa, March 24.—(Can. Press)—The budget, the annual financial statement of the Dominion, which will be submitted to the house this afternoon by J. A. Robb, acting minister of finance, will be a review of the past and a forecast of the future.

In his review of the year ending this month, Mr. Robb will announce a decided decrease in the ordinary revenue of the Dominion, and a smaller decrease in the ordinary expenditure. Ordinary revenue will, it is estimated, prove to be approximately \$335,000,000 as against \$339,000,000 in the previous year. Ordinary expenditures will probably be estimated at \$301,000,000 as against \$294,000,000 twelve months ago. The chief decreases have been under the head of customs and excise and it is stated, result chiefly from the change made in the last budget.

Estimates already brought down provide for an expenditure in the coming year of \$342,036,597 to which must be added \$60,668,000 provision for railways and for the Canadian government merchant marine. This makes a total of \$402,704,597. Main estimates for 1924-25, including railways, totalled \$400,571,850.

The government has also indicated its intention of giving assistance to the transportation of Canadian coal and that provision will be made for reimbursing the cost of the Howe Bank along the line of the committee reported accepted by the house last year.

In trade conditions, returns show a decrease in imports and an increase in exports. For the 11 months to the end of last month, imports amounted to \$712,324,487 as against \$608,413,281 and exports to \$974,251,551 as against \$932,912,282.

TOURIST ADVANCE GUARD
APPEAR

It was noted that the first tourists arrived in Macleod Wednesday of last week when R. Radcliffe and family drove into town, on their way to Nanaimo, B.C. Being unable to cross the mountains with their car, they shipped it to Yank, B.C. and will drive from there. They will take up a small farm and go into market gardening with poultry. They expect to visit Alberta again in a short time, and may come back to live.

Among the arrivals in Macleod on Thursday were A. F. Hanson and wife, in a Ford, on their way to Salt Lake City, and from there to Los Angeles, California. They came in last fall and went north as far as Fort Chipewain, where they trapped during the winter, and with their Huskies, of which they had six, also three pups. Trapping was not a "howling" success, and they left before the dogs broke up, and are this far on their way south. "The roads are good for this time of the year, and we hope to reach the boundary this evening," he said, as he drove off with the Huskies tied on the running board of the Ford.

MACLEOD SCHOOL FAIR SEPT. 16

An important meeting of teachers of the Macleod district was held in Macleod on Saturday afternoon, March 21, to discuss the school fair for 1925. Ten schools were represented by the teachers, and others by the trustees. Many expressions and opinions were expressed, with a result that a school fair will be held on September 16, 1925, in Macleod. The prize list will be issued in a short time so that every boy and girl will have an opportunity of preparing for the fair, by planting their garden or raising the chickens, a calf or colt, and so make the 1925 fair one of the attractions of Southern Alberta this year.

W. J. Benn, Claresholm, and organizer of school fairs from the School of Agriculture, was present and addressed the meeting, with the satisfaction of all who attended.

ALLEGED SLAYER SENT UP

Medicine Hat, March 23.—John Kollasch, charged with the murder of James Calkins, C.P.R. brakeman, Walsh, on March 9, was committed for trial by Police Magistrate Ellis here today.

as a most realistic portrayal of pioneer roles. He is cast as Floating Tom Hutter, freebooter and former pirate in "Leatherstocking," a novel chapter. Pathetic featuring Edna Murphy and Harold Miller and produced by C. W. Patton, which is being shown on Friday and Saturday of every week at the Empress theatre.

Whitehorse was so named by Indians who stole him when a baby from his white parents. He was brought up by the redmen and consequently knows more about them than most people. He is an expert horseman, a crack shot, and a fine actor. In "Leatherstocking" he had an excellent opportunity to bring all his versatile talents into action.

To Whitehorse the meaning of the word "heart" is unknown. Biography of his life would afford interesting reading but he steadfastly refuses to talk about himself.

"I was born and I'm not dead," he declares. "I am not afraid of snakes, but I don't like obituaries. Yes, Whitehorse is the only name I've got!"

SHORT, INTENSE EARTHQUAKE
SHOCK

Quebec, March 21.—A short but intense earthquake shock was felt here between 10:24 and 10:26 this morning. The shock lasted, according to available reports, from five to ten seconds, depending on the locality. Houses shook perceptibly and great commotion was caused throughout the city, the people thinking that there would be a recurrence of the disturbance of three weeks ago. No damage has been reported, however, although several women are said to be on the verge of hysteria as an aftermath of the shock.

SHELTER FOR THE GARDEN

Assurance may be given that for the most successful growing of horticultural crops,—fruits, vegetables, and flowers, on the open Canadian Prairies, protection from the strong and cold winds is essential. Shelter protection benefits these crops to a large degree.

The Morden Experimental Station, with the exception of a row of large box elder and green ash and cottonwood trees around the old farm house, was open prairie in 1916. During that season Caragana and willow hedges were planted generously, these have developed well and afford, with other subsequent plantings of different materials, friendly shelter to most of the garden areas. However, each season some plantings of vegetable crops and flowers are made in the open for comparison.

The following general observations have been noted at the Morden Experimental Station and at neighbouring farmsteads:

1. Shelter is most valuable when found on all four sides of the garden.
2. If there were but one material for garden shelter, the choice would be—the Siberian pine tree, Caragana arborescens.
3. The most effective shelter seems to be that afforded by rows of spruce trees. These are of rather slow growth in early life.
4. Coniferous trees, such as spruce and pine, seem to be less severe on the soil moisture in summer, than are the deciduous broad-leaved trees.
5. Very satisfactory and durable shelter is gained when rows of spruce trees are employed, and these flanked on the outside with caragana in hedge rows. The native-white spruce is the logical choice of the spruce varieties but Colorado blue spruce will probably withstand drought somewhat better.
6. Undesirable trees to be grown for shelter in proximity to a garden includes balsam poplar, Russian poplar, cottonwood, box elder or "Manitoba maple," and elm. The elm is a gross feeder and uses much soil moisture. The other trees harbor plant pests and cause annoyance from seedlings, and the poplars send up troublesome suckers.
7. Non-suckering varieties of willows such as laurel-leaved willow provide fair shelter for a large garden. This variety, however, should be carefully inspected for disease and cuttings obtained only from a plantation possessing a clear bill of health.
8. Until the tree shelter attains stature sufficient to make it efficient, it is helpful to grow a temporary shelter. Among the plants available for such planting are sunflowers, corn, and hemp.
9. Hemp makes an attractive shelter for the flower border. The seed should be fresh as it seems readily to lose its vitality.
10. Shelter protection seems to benefit all garden plants but it is necessary for the maturing of tall, fragile plants such as tobacco, delphiniums, hollyhocks, etc.
11. Good shelter is of much value to all hot weather crops as tomatoes, peanuts, melons, beans, okra, corn, etc.
12. Shelter is distinctly desirable for vine crops. Winds tend to blow the vines into braids or coils. The vine crops, such as melons, cucumbers, pumpkins, bear imperfect flowers and require visitation from insects to effect pollination. Insects such as bees work most effectively in sheltered locations, and stay their hives if high winds are blowing and their forage is not sheltered.

It may be pointed out that for the growing of horticultural crops for exhibition purposes, the sheltered garden has a decided advantage.

MACLEOD METHODIST CHURCH

George D. Armstrong, Minister
Sunday Services:
Morning subject—"The Rock Foundation."
Evening Subject—"Christianity and the World Outlook."
Rev. G. D. Armstrong will preach at both services.

COMING EVENTS
FORESHADOWED

DAY APRIL 1st. 9 p.m. Silver Grill
Hall. Speshul prizes for mails and
femals. Dig up your old duds and
have a jolly evenin'. Only a dime a
darnce, nothin' for femals.

The Macleod Women's Institute will give a "May Day" card party and dance in the Odd Fellow's Hall, Friday evening, May 1st.

GUARANTEE FOR POOL ELE-
VATOR LINE IS WANTED OF
GOVERNMENT

Edmonton, March 19.—Premier Greenfield and other members of the cabinet held a prolonged consultation this forenoon over the application of the Alberta Wheat Pool officials for additional financial guarantees for the pool in the event of the acquisition of elevator facilities being decided upon. After the close of the conference Premier Greenfield said the government had not yet reached a decision as to what should be done regarding the guarantee; the wheat pool officials are to be requested to give further details of their plans, which were only outlined in brief to the premier earlier in the week.

\$1,000,000 Guarantee Already

The Alberta Wheat Pool already holds a \$1,000,000 guarantee from the province, the premier stating that this has not been used. However, if an extensive plan of securing elevator facilities is determined upon it will be necessary to have this guarantee considerably enlarged, though the premier declined to say what was the minimum guarantee urged by the wheat pool leaders. In any event no definite

HEIRS WANTED

Missing heirs are being sought
throughout the world. Many people
are today living in comparative
poverty who are really rich, but do
not know it. You may be one of
them. Send for Index Book, "Missing
Heirs and Next of Kin," containing
carefully authenticated lists of miss-
ing heirs and unclaimed estates which
have been advertised for, here and
abroad. The Index of Missing Heirs
we offer for sale contains thousands
of names which have appeared in
American, Canadian, English, Scotch,
Irish, Welsh, German, French, Bel-
gian, Swedish, Indian, Colonial, and
other newspapers, inserted by law-
yers, executors, administrators. Also
contains list of English and Irish
Courts of Chancery and unclaimed
dividends list of Bank of England.
Your name or your ancestor's may
be in the list. Send \$1.00 (one dollar)
at once for book.

PREVENTIVE MEDICINE AND

ADVERTISING

British Medical Association is once

more discussing, with some heat, the

old question of advertising, says a

cable despatch from London.

The future of the medical pro-
fession depends entirely upon its abil-
ity to practice preventive rather than

curative medicine. And the only

agency in the world that can build up

preventive medicine is advertising.

Medical men complain that the

public neglects vaccination, that the

simplest kinds of preventive measures

are never practiced.

If the public neglects these things

it is the fault of the doctors.

For the medical profession has,

right in its hands, the greatest

weapon against disease ever contrived

by man. Educate the public in health

measures, tell the people how to live

—and, in five years, disease could be

decreased by 80 per cent.

If it is not "ethical" to prevent

disease through publicity, then it must

be unethical to fight disease at all.

The greatest evil arising out of the

reticence of the medical profession to

advertise the principle of preventive

medicine is the fact that, while sound

science maintains an utter silence on

these matters, pseudoscience is over-
articulate. Instead of absorbing the

principles of real science, the public

eager for relief, turns to the fakir, the

quack and the purveyor of theories

that are just right enough to be

dangerous. The silence of science

emphasises the voice of the crank.

The doctor has something to sell the

public. His scientific knowledge is

just as much salable merchandise as

the goods on the shelves of the

merchant.

But where the merchant has adopted

the great science of publicity to

create his "channel of trade," and as

a vital factor in his prosperity, the

medical man is doing business on

principles that prevailed 500 years

ago.

For the sake of the public health,

for the sake of the medical pro-
fession's prosperity, publicity must

eventually become a factor in the

drive against pain, disease and death.

And why not now?

Name

Address

ing more, it would not be so bad. If

grown men want to dress themselves

up in bed sheets and give themselves

silly titles, nobody will want to stop

them.

But when this gibbering nonsense

is used to cover up hatred, prejudice

and rancor, it is something different.

The plain truth is that any organi-
zation which stands for sectionalism

prejudice between religions and strife

between races is a pollution to the

country in which it is allowed to exist.

It has taken the human race 50,000

years and the Canadian race 200 years

to learn some little measure of toler-
ance between race and race, creed and

creed.

And, if some little group of hard-
headed agitators is allowed to undo

all that long, tortuous evolutionary

process, it is a plain disgrace to the

country.

"CASHING IN" ON RESEARCH

In the new buildings under con-
struction on the campus of the Uni-versity of Washington at Seattle is be-
ing used a new manufactured

cement granite.

Roughly, the process by which the

artificial granite slabs are being con-
structed consists of blowing various

colored granite chips and dust into the

soft concrete for a distance of about

an inch.

This construction material presents

a remarkably fine appearance and can

be produced for about one-quarter the

cost of natural granite.

It is only another instance of how

American industry is "cashing in" on

research.

With a great corps of scientific

brains working steadily to reduce

costs and produce quality, the United

States has the edge on the whole in-
dustrial world.

Until Canada realizes that research

is the keynote of modern industry and

retains her scientific brains for the

benefit of business, this country can-
not hope to compete in a manufactur-

ing way.

GET INTO THE AIR

Horace Greeley's contribution to the

good advice of his generation was:

"Go West, young man, go West."

If any other Horace Greeley of this

period wants to make his reputation

as a sage, he can accomplish it on the

slogan: "Get into the air, young man

get into the air."

Just as the future of young men of

Greeley's day lay in the West, so does

the future of ambitious young men of

this day lie in the air.

In 20 years nine-tenths of North

America's passenger traffic, express

traffic and probably a good slice of

inland freight traffic, will pass

through the air.

The pioneers in air transportation

will carve a place for themselves in

history, just as the Jim Hills, the

Shagbushes and the Van Hornes

carved places for themselves in his-
tory through the medium of two steel

rails.

The sons and grandsons of the men

who followed Greeley's advice and

"went West," need another Greeley

today to catapult them "into the air."

MIXED TIME

Teacher—"How can you tell the ap-
proach of winter?"

Pupil—"It begins to get later

earlier."—Karlakuren (Christiania)

THE BRUTE

Lady—"My husband is a deceitful

wretch. Last night he pretended to be

lieve me when he knew I was lying to

him."—London Mail.

Almost everybody kicks about silver

dollars except the manufacturer of

suspenders.

After all, the greatest instrument

of destruction ever invented is man.

TAHITI

HOPEFUL PROSPECTS FOR SHEEP INDUSTRY

Prize Winning Pair at a Manitoba Lamb Fair

Addressing the Saskatchewan Sheep Breeders' Association at their annual meeting this year, Mr. A. A. MacMillan, Chief of the Sheep and Swine Division of the federal Live Stock Branch, referred to sheep raising as among the most remunerative branches of farming. Its adoption, however, has in the past been hindered in many cases by the fencing problem. Mr. MacMillan showed that by using woven wire with two strands of barbed wire at the top, the extra cost of fencing for sheep was approximately \$50 to \$80 for a quarter section, \$100 for a half section, and \$150 for the fencing of a whole section of land. A review of the wool situation made by Mr. MacMillan gave confidence that for some years at least wool prices were more likely to advance than recede. The same confidence was expressed with reference to the market for lambs. Referring to the quality of western wools, Mr. MacMillan pointed out that none were more easily sold than the range wools of Southern Saskatchewan and Southern Alberta. The keen demand for breeding ewes led to some disappointments to beginners, who were recommended to observe the following precautions in establishing a flock:

1. If you don't know sheep, get someone who you can depend on to act with you in making the purchase.
2. Start moderately—a flock of

thirty, fifty, or one hundred head at the outside are more likely to prove profitable than a flock of several hundred.

3. Be sure to get young breezy ewes of good conformation. They may cost a little more to start with but they will be cheaper in the end.

4. Find out what your neighbours think of starting a flock. Several flocks established together add stability to the undertaking and each farmer benefits by the other's experience. With several starting together, collective buying of ewes and rams can be arranged, co-operative shipping of market lambs can be organized, and community grazing may be considered.

5. During the first year or two get all the practical advice about sheep raising that it is possible to obtain. Don't neglect dipping. The community dipping tank reduces the cost of dipping. Remember that docking and castration means more money for the lambs. Clean fleeces properly shorn and prepared for market, means more money for the wool. Sell the wool on a graded basis and consign for co-operative sale.

6. Make some outlay for good woven wire fencing, but avoid unnecessary expense for buildings and equipment.

7. Buy purebred rams of good utility type to head your flock.

ADVERTISING IN THE MACLEOD TIMES WILL PAY YOU

you become disabled what about your Life Insurance?

"I HAVE always hesitated about increasing my life insurance because of the responsibility I would have to assume for the premiums," said a man who typifies a considerable class. "I always pictured myself in some situation, perhaps disabled through an accident, where I might be unable to pay the premiums."

But you may now insure against this possibility of future inability to pay your premiums. For a small additional charge the Mutual Life of Canada will issue your policy subject to a clause which provides that in case of total and permanent disability the Company will waive further premiums.

That is not all. Upon approval of proof of disability, the Company will not only waive future premiums, but will pay \$10 a month per \$1,000 of assurance, so long as total disability continues.

And further, if the policyholder should die by accident the Company will pay double the amount of life insurance named in the policy. These new clauses are optional in all old or new Mutual policies if assured be over 15 or under 55 years of age.

The MUTUAL LIFE OF CANADA Waterloo, Ontario.

OVER SIXTY WAYS TO SERVE CHEESE

That Canada will soon take its place with the nations that are the largest consumers of cheese seems assured considering the steady increase in its consumption in the past few years since the Kraft-MacLaren Cheese Company, of Montreal, introduced the five pound box. The Kraft Company were the originators of the popular tinfoil-wrapped cheese, without rind or waste, in the five pound wooden box, and while the original product has had many imitators, none have been able to produce a cheese of the same uniform quality and flavor because the Kraft process is protected by patents. The Company does not make cheese, therefore, it is not competing with the cheese factories. But it purchases Canadian cheese in enormous quantities, thus keeping the cheese factories busy and adding to their prosperity and that of the farmers. Kraft Cheese is simply a scientific blending of these manufactured cheeses by means of the patented Kraft process which absolutely controls the flavor.

The company has just issued a beautiful recipe book showing over 60 different ways in which cheese may be served. Many of the dishes are illustrated in natural colors. A copy may be obtained, free, on writing to

the company in Montreal, mentioning this paper.

WHY AN ENGINE SHOULD BE A "SHE"

The following letter from "Japanese Lady" appeared in the shipping Register at San Francisco:

"Some time ago you publish in your valuable paper article on female shipping steamer. I have thought to write you about female engine on train. You know why? Yes, they call she for many reasons.

"They wear jacket with yoke, pins, hangers, straps, shields, stays. They have apron, also lap. They have not only shoes but have pumps. Also hose and drag train (passer and freight) behind. Behind them all time. They attract men with puffs and muffers and when draft too strong petticoat goes up. This also attract men. Some time they foam and refuse work when at such time they should be switched. They need guiding—it always requires man manager.

"They require men to feed them. When abuse are given they quickly make scrap.

"They are staidier when coupled up but my cousin say they hell of an expense. It not enough reason?"

Animal instinct isn't so impressive when you know the men some dogs associate with.

THE TIME HAS COME

When HARDY FRUITS in abundance can be grown anywhere in the West. Any home can have a garden of APPLE, CRAB-APPLE, PLUM and other fruits. We have and offer the following:

- 20,000 Trees of Hardy Hybrid Plums @ 75c each. \$7.00 per doz.

CAPITAL GOSSIP AND PROV. NEWS

Hutterites Buy Land

A section of land in the vicinity of Magrath, south-west of Lethbridge, has been sold to a colony of Hutterites for \$25,000 cash, \$40,000 on a mortgage, according to a report from Magrath.

Form Colonization Association

The Central Alberta Land Settlement Association has been formed as a result of a conference on immigration held the past week at Edmonton under the auspices of the Edmonton Board of Trade, at which 100 delegates were present including prominent railway and government officials.

Corn Growing Develops

Greater acreage than ever will be in corn in Southern Alberta the coming season, it is reported. Last year the acreage in the southern part of the Province was about 50,000 acres and it is expected this will be doubled. Lethbridge Board of Trade plans to hold a corn show in that city in the fall.

Veteran Missionary Honored

The Cross of the French Legion of Honor was conferred with great dignity and ceremony during the past week upon Bishop Grouard, veteran Catholic missionary in the northland, by F. C. Rouquette special envoy of the President of France, who came from France for the purpose. The honor was conferred for the long years of service among his fellow countrymen in this country given by Bishop Grouard, who is now residing at Grouard, north of Edmonton.

Reaps Good Returns

J. H. Anderson, farmer near Magrath, Alberta reports that his income from a forty-acre field of wheat in the 1924 season was \$2,000, or \$50.00 an acre.

Registered Seed Available

Alberta farmers who have not yet secured their seed for the coming season are reminded that pure registered seed grain is obtainable at the government seed cleaning plant at Edmonton, where the seed is cleaned and graded, and marketed co-operatively for the producers.

Alberta's Educational Report

Total enrolment in Alberta's public and secondary schools was 147,373 for the term ending in 1924, according to the report of the Department of Education tabled in the Legislature this week by the Minister of Education, Hon. Perron Baker.

This enrolment is 62 less than the previous year, but the report draws attention to the fact that there is an increase of 1,184 in the enrolment of those grades above Grade Eight. The secondary schools had an enrolment of 13,446, or 9.13 per cent. of the total enrolment. How the enrolment in secondary schools has increased is shown by the fact that in 1905 the high schools had only 686 pupils or 2.41 per cent. of the total enrolment. In 1915 the total was 5,233 or 5.38 per cent. and in 1924 was 13,446 or 9.13 per cent. of the total.

The supply of teachers is increasing rapidly, the report says, and there is no difficulty for schools which will pay reasonable salaries in securing teachers.

During the year 611 teachers were trained at the normal schools and certificates granted to 158 trained in other provinces, making a total of 769 Canadian-trained teachers ready for teaching in Alberta.

The institution of the correspondence course for pupils in outlying districts and who were unable to attend school has been a success. There are now 350 pupils enrolled in the courses.

During the year the province contributed \$38,449.97 toward the education of deaf and blind children, and a grant of \$5,000.00 to the Canadian Institute for the Blind.

Loans to school districts were paid back to the government during the year to the extent of \$101,081.42 principal and interest. The outstanding total is now \$484,617.54 in principal and \$11,016.32 interest.

The report of the summer school held in August showed an enrolment of 331 teachers.

In the examinations held during the year the candidates totalled 16,247. There are now 26 inspectors, one of whom is for high school work, compared with 40 inspectors with two for high school work before the reduction was made in 1923.

The attendance at the technical school at Calgary was 939, of which 399 were day students, 255 night students and 285 in correspondence courses.

Analysis of the enrolment figures showed that there were 79,918 in graded schools and 67,455 in ungraded schools. Analysis of the age of pupils according to grade showed that 38.95 per cent. of the total enrolment was over-age, 56.40 were of normal age according to grade, and 4.65 were under-age. A total of 3,873 left school at the age of 15, of these 1,273 were in Grade Eight, 1,141 in grades above Eight, and 655 in the grades below Eight. The report states that there has been a large decrease in the pupils leaving school.

Report of Alberta Gaols

Reports for 1924 covering the administration of the two provincial gaols show that there was a net decrease in the average daily population of the gaols over the previous year. The Lethbridge gaol had a daily average population of 122, an increase of 11 over 1923, while the institution at Fort Saskatchewan had an average daily population of 161 or a decrease of 22 over 1923. The cost per capita for the year for the prisoners at Lethbridge was \$177.65 which compares with a per capita yearly cost of \$309.10 in 1923. The per capita cost for the year at Fort Saskatchewan was \$243.55.

At the end of 1924 there were 138 prisoners in the Lethbridge gaol and

123 in the Fort Saskatchewan Institution.

Annual Feeders' Day

The annual feeders' day held under the auspices of the animal husbandry branch of the college of agriculture at the University, will take place Saturday, April 18, the last day of the Edmonton spring stock show. Those who attend are asked to meet at the University farm building at 10 o'clock. Results of livestock feeding experiments during the past six months will be available for the benefit of those who take in the lectures.

Fourth Creamery Short Course

The fourth short course for creamery workers will be held at the University of Alberta, March 30 to April 17. The previous courses have been very well attended, the enrolment at the last reaching 29. Students from 31 points in the province have attended these courses.

APRIL ROD AND GUN

Facts and fiction for the sportsman, interesting and of a wide variety, are offered in the April issue of Rod and Gun in Canada. The initial story, The Shanty Up By the Gens-de-Terre, by Alden Griffin Meredith, is a tale of silver prospecting warranted to hold the attention of all who read it. In The Motoring Legions Are Coming, Wm. G. Irwin heralds the influx of summer tourists into Canada. Bonny-castle Dale and J. W. Winslow again discourse interestingly on wild bird life and F. V. Williams and Martin Hunter add their quota of good reading. The Guns and Ammunition is up to its usual standard of excellency and includes articles on the Varmint and the Early Remington rifles. In Fishing Notes, Robert Page Lincoln takes up the question of different lures to be used for fishing, and the other departments, stories and sketches, all deal with some seasonable subject interesting to the sports

LOCAL AND PERSONAL NEWS

Frank Mackenzie of Blairmore was in Macleod on Sunday last.

Mr. and Mrs. H. W. Bright were Calgary visitors last week.

J. D. Matheson, barrister, was in Calgary Monday on professional business.

J. Nourse, who has been at Coleman for some time, returned to Macleod on Monday last.

G. A. Kennedy of Lowney's Chocolate firm was a business visitor to Macleod on Monday last.

According to the big loads of furniture that are being removed from the different residential blocks to the farms, it is a sure sign Spring is coming.

Ernest Young, who has been engaged in the bank at Donald, will leave his position there to take up one with his father in the K. A. Y. Realty Company at Macleod.

The Macleod Women's Institute held their monthly meeting on March 18 in the Odd Fellows Hall. They also gave a very successful Musical Tea on March 7th.

Douglas Russell left last Thursday for Eastern Canada points where he will make an extended visit with relatives and friends. Doug's itinerary includes Toronto, Hamilton, London, Windsor, Detroit, Buffalo and Niagara Falls, N. Y.

Mike Oka, a Blood Indian, is well known to almost all people in Southern Alberta, and his friends will sympathize with him in his bereavement, by the death of his wife on Tuesday, March 17, 1925, at the age of 43 years. Mike has been a scout and interpreter with the Mounted Police for many years and still renders great assistance to the Red Coats when necessary.

Miss Wilson's Millinery opening on Thursday of last week proved a very successful event in its showing of new creations for Milady's spring adornment. The new store lent itself to a beautiful display of the latest in spring hats and millinery trimmings—the ladies being particularly enamored of the lovely small French hats with high trimmings of ribbons and flowers. On Friday afternoon ten and cake was served to a multitude of the fair sex. The new store

was beautifully decorated with carnations and potted plants.

A. Whitney, of Monarch, spent a few days in Macleod last week.

J. Taylor of Lethbridge was a business visitor to Macleod on Tuesday of this week.

Miss Bernice Elder, of Granum, was the guest of Miss Edith Coffey for a few days this week.

Mrs. Kerr Seymour's musical recital by her many pupils in the parish hall on Friday, March 20, was a great success and the parents and friends of the children were given an opportunity to see the progress made by the pupils of Mrs. Kerr-Seymour.

The Whist Drive and Dance given by the Rebekahs on Tuesday evening was very successful—a large attendance—good music—and a most enjoyable time. Ladies first was captured by Miss Anderson; consolation by Mrs. Lochead. Gentlemen's first, W. J. Smith; consolation, John Keats.

A. West returned this (Thursday) morning from Minneapolis where he had been called on account of the illness of his father, T. West, a civil war veteran, of Boyceville Wisconsin. Mr. West was stricken with heart trouble on March 2nd and death ensued on March 13th in spite of medical effort.

Frank Tatham of the Kainai Kernels received a severe bite on the hand while separating two of his airdales from fighting. The bite was cauterized but the hand is very badly swollen. Only a few weeks ago he received a bad bite on his arm while separating two dogs from fighting, and had to be medically treated.

Lone Rock school house was taken possession of by the bachelors of the district Friday night, March 20, when they invited their friends far and near to enjoy an evening with them and they did. When it is known that Jack Cotton and Phil Sparling were the promoters and acted as hosts, and the old time dances were the order of the evening the balance will be readily understood. April 3 is the next date.

The celebration committee of the Indian convention met in Macleod on Saturday, March 21, and received the reports from the sub-committees which were very satisfactory and which is practically the completion of the program and prize list. The advertising committee reported good progress with the program advertisements. Arrangements for the printing of these will be taken up and it is expected to have these ready for mailing early in April.

Fred Benson, well known and respected storekeeper of Macleod, left on Thursday for a vacation to the old country. Mr. Benson, who was accompanied by his wife, is taking a trip to his home in Manchester, England, after an absence of 15 years spent in Macleod. During that time he has operated a butcher store in Town, where his previous first hand knowledge and experience of the business stood him in good stead and ensured him a first class patronage. Mr. and Mrs. Benson in all probability will return to Macleod next fall.

Johnnie Franklin, the noted horseman, arrived in Macleod Friday morning last on his way back from California, where he spent the winter with his family. "Yes that country is all right to visit in, but give me Alberta to make a living in, and to have friends," Mr. Franklin is going to High River on the E.P. Ranch and will again have charge of the horses that in the past have made Alberta famous and will bring more fame in the

future. The best of horses and cattle in what the ranch prides itself on.

Last year under the auspices of the Canadian Pacific Railway, First Aid Classes were held, by the St. John Ambulance Association (of London England), E. G. Noble, of Winnipeg, being the instructor. After having successfully passed the first year examination, in this work, the following ladies and gentlemen received their First Aid Certificates (Distinguishing): Mrs. Ades, Mrs. R. Baker, Mrs. Gilroy, Mrs. Nicholson, Mrs. Reid, Miss Lilly Hicks; Messrs. Hart, D. Nicholson, F. Paisley, T. Pittard, C. Lewis, R. B. Wilson and W. Pharo.

AGRICULTURAL SOCIETY CARNIVAL

The Carnival held under the auspices of the Macleod Agricultural Society proved a great success and the management are congratulating themselves on the results of same. Naturally, as in all new ventures, the running of the potluck could have been improved, but as long as the Society are able to add nearly one hundred dollars to their credit, and the management have gained a lot of useful experience, why no person has any kick coming.

The chocolate games were well patronized and lots of fun was caused for all. The radio set was won by Miss Ruth Maclean daughter, of Mr. and Mrs. T. S. McLean, with the lucky ticket 542.

The sheep was won and won again, and we believe is yet to be won again as there were too many judges, or at least assumed judges, butting in while the weight of the animal was being taken, hence a mistake was made of ten pounds in subtraction—that is the weight of the sheep and crate was 137 pounds, and the weight of the crate alone was 51 pounds, which leaves the sheep at 86 pounds, and not 76, as was announced. Also proving that the weight given at Burns' Butcher shop was correct.

The dance was well attended, but unfortunately the ticket collectors were new to their job and overlooked the most important part of seeing that everyone had a ticket or a dime, especially on Saturday night, when the proceeds from the dance should have been more than doubled. But everyone seems satisfied, and the management are looking forward to again putting on a three day carnival which will be bigger, better and jollier than ever.

MINSTREL SHOW MAKES A HIT

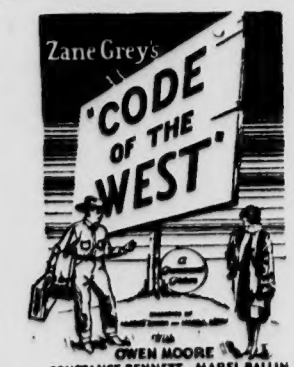

The Macleod Band Minstrels made a great hit when they put on their nigger minstrel entertainment at the Empress Theatre on Wednesday evening.

The company of darkey songsters of which there are thirteen, are led by Tom Clarke, who has the role of interior which he carries out in good style. The four comedians comprising Ding Hart, Alf Hart, Roger Hunt and Nick Hart keep the fun and laughter moving, while the balance of the troupe make up a real good entertainment. The program, which was well carried out, and much enjoyed by the big crowd that attended, was as follows: Opening Chorus by Company, Comic Quartette by Cornermen, Comic Duet by Hunt and Hart, Comic Duet by Hart Bros., Song by J. Griffin, Song and Dance by J. Bogan, Watermelon Song by R. Hunt, Quartette by 4 cornermen, Comic Song by A. Hart, Song by D. White, Comic Song by H. Hart, Comic Song by C. Edgar, Comic Song by N. Hart, Instrumental number by four handsomen, Monologue and Song by Bogan, Instrumental Novelty by the Hart Bros., Sketch by Edgar and Hart, Closing Sketch "Ricky Radio" by entire company. Willie Hart acted as accompanist at the Piano. Alf Hart, who managed the outfit deserves great credit for his production, as also does J. Edgar for musical arrangements.

A TRIBUTE TO CANADIAN BEEF

A tribute to the excellence of Canadian cattle that are shipped to Great Britain appears in a recent issue of the "Review of the River Plate," published in the Argentine Republic. The Canadian cattle, the writer states, are finished on grain and their flesh is of better flavour than Argentine alfalfa or grass fed cattle. The Argentine's beef, he points out, has a splendid appearance, but it does not equal in thickness or flavour the Canadian grain fed bullocks.

A new light ray penetrates brick walls, and hereafter the most reactionary head won't be safe.

OBITUARY

DEATH OF MRS. DAN J. GILLEN

Mrs. Dan J. Gillen passed away at her home south of Macleod at eleven p.m. Wednesday, March 25th, after a protracted illness. The deceased was born at Marmora, Ont., October 29th, 1861, and lived in Ontario until fourteen years ago, when she came to reside in this district. Her husband, two daughters and two sons, and a host of friends mourn her loss. The funeral cortege will leave her late residence on Saturday morning, will proceed to the Holy Cross Church, Macleod, where Requiem Service will be held at 10.30 a.m. Interment in Holy Cross Cemetery.
